

Dangerous Goods Awareness & Aviation Security Training

Oxford Aviation Academy are pleased to offer Dangerous Goods Awareness and Aviation Security Training at our Manchester Training Centre. This training can also be provided on-site if necessary.

Dangerous Goods Awareness

Flight Deck Crew

A half day course designed to provide knowledge and understanding of the rules governing the carriage of dangerous goods, identification of the hazards involved and the normal and emergency procedures applicable to air transport. Concludes with an examination.

Cabin Crew

A half day course designed to provide knowledge and understanding of the rules governing the carriage of dangerous goods by passengers, identification of the hazards involved and the normal and emergency procedures applicable to air transport. Concludes with an examination.

- * Recurrent training is required **within 24 months** of any previous training.

Aviation Security

Initial

This one day course is to enable aircrew to be aware of the elements of the Aviation Security Programme which has a direct influence on their duties as Flight Deck or Cabin Crew.

Refresher

This course is designed to reinforce the knowledge gained from the initial course and to review new developments in the field of aviation security.

- * Refresher training is required **within 12 months** of any previous training.
