- Dangerous Goods

### Customised Courses

Specific airline checklists and flight procedures can be used during all courses. In addition, the standard courses can be tailored to your specifications or completely new courses can be designed if required.

### Our Training Philosophy

Oxford Aviation Academy believes that the key to all successful training is efficient two-way communication between the trainee and instructor.

Successful training is characterized by instructors giving support and encouragement through a trainee-centred and solution-focused approach.

### Experience you can rely on

The quality of our training courses, facilities and training devices has been established over many years through the training pedigrees of SAS Flight Academy, GE Commercial Aviation Training and BAE Systems Customer Training Centre.

Our Type Training centres have airline roots dating back over 80 years, and currently train thousands of flight and cabin crew every year.
