Oxford Aviation Academy (OAA) became the first organisation in the world to have its MCRM course certified by DNV against the Manila 2010 requirements that come into effect from January 2012. An early pioneer in developing the first BRM course back in the 1990's OAA has gone on to develop the most modern materials (version 12) and training delivery in the industry.

MCRM - "Training for bridge and engine room officers at aviation industry standards".

Participants will receive DNV and OAA certification against the STCW Manila 2010 requirements.

For course price, accommodation details or further information please contact mcrm@oaa.com or phone +44 1293 596709.
