Saab 340 Type Rating Course

Our courses are developed to equip you with all the necessary skills and competencies required to further progress your professional pilot career. Type rating courses ranges from Type Rating with Integrated MCC to the very shortest course for experienced pilots, Abbreviated Type Rating course.

We employ the highest standard of instructors, together with training centres fully equipped with Full Flight Simulators and flight training devices, advanced CBT courseware and classroom facilities. A portion of the ground training can be accomplished via distance learning.

Course Prerequisites

- 70 hrs IC (250 hrs for ATPL applicant)
- Valid ME IR (multi-engine instrument rating)
- Valid Class 1 medical certificate
- JAA theoretical ATPL exam
- MCC certificate of completion

Course Content Summary

- 11 days CBT and Classroom tuition covering; Aircraft Systems, Technical review, SOP, Performance, Mass & Balance and Test
- 3 sessions FBS, Fixed Based Simulator
- 9 sessions FFS, Full Flight Simulator
- Min. 1 session FFS for CAA Check/Skill Test

Duration approximately 5 weeks

There are slight variations to the standard course footprint at the different training locations due to regulatory requirements.

Location Saab 340 / Saab 2000

Stockholm, Sweden
