

Type Rating Courses

Our courses are developed to equip you with all the necessary skills and competencies required to further progress your professional pilot career. Type rating courses ranges from Type Rating with Integrated MCC to the very shortest course for experienced pilots, Abbreviated Type Rating course.

We employ the highest standard of instructors, together with training centres fully equipped with Full Flight Simulators and flight training devices, advanced CBT courseware and classroom facilities. In many cases a portion of the ground training can be accomplished via distance learning.

Dash 8-Q400 Type Rating

Course Prerequisites

- 70 hrs IC (250 hrs for ATPL applicant)
- Valid ME IR (multi-engine instrument rating)
- Valid Class 1 medical certificate

Location Dash 8-Q400

Stockholm, Sweden.

Customized Courses

Specific airline checklists and flight procedures can be used during all courses. In addition, the standard courses can be tailored to your specifications or completely new courses can be designed if required.

About us

Oxford Aviation Academy is the world's leading independent provider of aviation training, personnel solutions and technical support services, offering professional pilot training from ab initio through to type rating, including base and line training.

Advanced Pilot, Cabin Crew and Maintenance Training

Our Type training centres, with approvals by the European EASA, Hong Kong CAD and Chinese CAAC, have airline roots dating back over 80 years, and currently train thousands of flight and cabin crew every year.

With significant focus upon instructor expertise, equipment reliability, training innovation and customer service, we can deliver a premier range of training services.

Our courses include, Type Rating, Type Training, Recurrent Training, Refresher Training, Instructor Training, Eco Pilot Training, Command Upgrade Course, Difference Course, Jet Orientation, ELT, Long Range Operations, MNPS and ETOPS Training, HGS Training, Safety Training, Medical Training, Crew Resource Management (CRM), Multi-Crew Co-Operation Courses (MCC) and a wide range of Maintenance and Cabin Crew courses.

Our Training Philosophy

We believe that the key to all successful training is efficient two-way communication between the trainee and instructor.

Successful training is characterized by instructors giving support and encouragement through a trainee-centred and solution-focused approach.
